PACIFIC INTERNATIONAL KAYAK ASSOCIATION 2020 TRIPS, TRAINING and EVENTS CALENDAR

WELCOME

Welcome to the 2020 PIKA trips, training and events calendar, your guide to paddling happiness.

PIKA's volunteer trip facilitators spend a lot of time researching and creating this calendar for paddling throughout the year. It includes trips, clinics and practices that appeal to every skill level. Facilitators may limit the number of participants on their trips so sign up early and often!

Please note that there are no "drop in" trips. You MUST contact the trip facilitator to sign up, at least 2 days before the day of the trip and earlier for weekend or full week trips. Trip launch sites can be changed, carpooling may be required, group size may be limited, trips may be cancelled or rescheduled and if you haven't spoken to the trip facilitator, you may find yourself on the beach alone. In addition, a float plan must be filed by the facilitator and your emergency contact information is required. Please make sure you get a confirmation back from the facilitator.

Consult the classification chart on the next page to determine if a trip may be suitable for you. Discuss your skills with the trip facilitator if necessary.

NOTICE OF CANCELLATIONS

With the health and well-being of our members foremost on our minds, and in following governments guidelines and consulting with other paddling clubs, **we are cancelling all PIKA functions scheduled for April and May, 2020**. This includes the club meetings as well as all scheduled training sessions and group paddles.

Other cancellations are the Western Canoe and Kayak Paddle Expo scheduled for April 26th at Cultus Lake and the Alert Bay 360 on Cormorant Island scheduled for August 2nd.

As of **June 1, 2020**, following [BC's Restart Plan](#), the club will re-open some of the events on our PIKA trip schedule, month by month. Each month will be reviewed two weeks prior to the first of the month to determine which events will take place based on site openings and PIKA's [current COVID-19 guidelines](#).

One other requirement for participating in any paddles is a current self re-entry skill.

To keep up to date, see the PIKA newsletter emails and website.

HOW TO SIGN UP FOR A TRIP

When you select a trip to sign up for, ensure that your skills meet the paddle's PIKA classification. The facilitator may not allow you on the trip if they feel that you don't meet that classification.

To sign up for a trip, contact the facilitator by email at least 2 days before the trip (or by the date specified in the trip description) and provide the following information:

- Your name
- Number of years of paddling experience and your Paddle Canada or equivalent skill level
- Name of manufacturer of your kayak and its colour
- Medical issues that the facilitator needs to be aware of
- Your cell phone number
- Emergency contact phone number
- Your vehicle's manufacturer, model, colour and license plate number
- Your MMSI number if you are bringing a VHF radio

The facilitator will send you a waiver form which you must complete and return before the day of the trip.

COVID-19 SAFE PRACTICES

If you are headed out for a paddle, here are our recommended safe practices:

Don't paddle alone...paddling in groups of 3 or 4 is best. No more than 6

No car pooling unless you live together

Don't touch each other's gear and don't help undo each other's kayaks

Be careful when assisting another kayaker with their kayak, unloading, carrying, loading

Use hand sanitizer after helping to carry/load/unload someone's boat

Make sure the foot pedals/rests/rudder controls are set for the length of your legs before starting the paddle. No one can help you adjust them on the water while remaining COVID-19 safe.

Carry hand sanitizer and Lysol wipes (a few wipes in a Ziploc will fit in your PFD pocket

Carry a couple masks in a Ziploc in your PFD as well...emergency only...one for you and one for the unexpected swimmer who needs an assisted re-entry and you haven't got a safe distance method under your belt yet. All paddlers need to be able to self re-enter, but stuff happens!!! For those of you who wear those circular "buffs" around your neck, they pull up easily to double as a mask.

Remember to stay 2 metres apart, including when you stop for lunch

Don't go out in rough water...we don't want you to have to do an assisted re-entry, or need to involve search and rescue

Be confident in your self re-entry so that an assisted is not necessary

Don't forget all your usual safety equipment and dress for the water...it is still cold

TRIP CLASSIFICATION SYSTEM

PIKA applies the classification system described below in its trip calendar to indicate the expected skills/degree of difficulty (1-4) and distance involved and physical effort necessary (A-D) for a PIKA trip.

A trip classification is set by the most difficult and most strenuous part of the trip. It does not take into account changes in sea conditions or weather which may change trip classification unexpectedly.

For the required equipment for a trip, see the PIKA Paddler Guidelines.

TRIP CLASSIFICATION	A-Not Strenuous •Less than 3 hours per day •Less than 6 nmi •Sheltered spots	B-Moderately Strenuous •3 to 5 hours per day •6 to 10 nmi •Some sheltered spots	C-Strenuous •5 to 6 hours per day •10 to 15 nmi •Infrequent sheltered spots	D-Very Strenuous •More than 6 hours per day •More than 15 nmi •Few or no sheltered spots
1-Easy •Minimal paddling skills •Assisted re-entry skills •Protected inland waters •Moderate wind effects •Weak to moderate current •Easy to moderate landings	↓ 1A	↓ 1B	↓ 1C	↓ 1D
2-Moderate •Basic paddling, able to brace •Self/assisted re-entry skills •Sheltered/partly-sheltered coastal waters •Moderate wind effects •Weak to moderate current •Easy to moderate landings	→ 2A	2B	2C	2D
3-Difficult •Good paddling, sea skills •Self/assisted re-entry skills •Open coast, exposed water, crossings and swells. •Moderate to strong wind effects •Moderate to strong current •Surf and difficult landings	→ 3A	3B	3C	3D
4-Very Difficult •Advanced paddling and sea skills •Self/assisted re-entry and rolling skills •Strong individual paddler •Long open crossings •Exposed coast •Turbulent water, chop •Strong wind effects, large swells •Strong current •Surf and difficult landings	→ 4A	4B	4C	4D

YOU ARE RESPONSIBLE FOR YOUR OWN SAFETY ON ALL TRIPS. Make sure you have the skill level, the physical strength and endurance and the right equipment. Do not go out in conditions that you are uncomfortable with. Kayaking conditions are variable and contain unpredictable elements that make any attempt to grade inexact.

<p>This trip will be in most part a relaxing kayak camping trip with lots of time to explore or just relax and read a book. In 7 days, we should be able to circumnavigate Read Island with a possible stop over at Surge Narrows depending on the group. Bring a fishing line you might get lucky. Everyone will have a chance to cook one supper for the group with appies and dessert.</p> <p>Meet at Heriot Bay boat launch on the afternoon of July 24. Paddle to Breton Island campsite about 35-minute paddle and set up camp for Friday night. We will return to Breton Island for our last night of camping and the next morning return to Heriot Bay and head home. Marine charts 3538 and 3539 cover the area to be paddled. Minimum immersion gear: neoprene wetsuit.</p> <p>Maximum 8 kayakers. Sign up by May 1. Sign up is extended</p>

Broughton Archipelago
Re-scheduled to 2021

Facilitator: Cathy Cook

paddlinggma@gmail.com

20-
28

The trip will start with one night at the picturesque Telegraph Cove resort. Some of the group will stay overnight August 20, the others on August 21. This is because the water taxi from Telegraph Cove that takes us to the Paddlers' Inn can't accommodate the whole group at once. Departure will be staggered as well, with each group having 7 nights of glamping at the Paddlers' Inn. To see what the Paddlers' Inn is like, see <https://paddlersinn.ca/>.

Broughton Archipelago is a pristine, mostly protected paddling area east of Telegraph Cove. Each day's paddle will be determined by the group the night or days before, depending on how adventurous the group is and what the weather looks like. At night we'll gather around the common area and even dip our paddles into the water to see the bioluminescence. Hikes around the island are also a possibility.

Maximum number: 14. Planning meeting in May.

Sign up by April 24.

SEPTEMBER

Saturday September	3C 12 nmi (14 statute miles)	Upper Fraser River Yale to Hope Cancelled	Facilitator: John Drent jtrdrent@telus.net
5	<p>Meetup: Hope. Time: 9:00am.</p> <p>This section of the Fraser most resembles conditions found in some of the local tidal passes. Big volume river with few obstructions. Using the International Scale of River Difficulty (note that this bears no relation to the PIKA classification) some sections could be rated as high as a big volume grade 2, depending on your route, since it is a wide river with many currents. We will hit as many eddies as we can and practice manoeuvres. Trip depends on water levels.</p> <p>Paddlers should have Paddle Canada Level 2 equivalent or better sea kayak skills, including the ability to manoeuvre in fast moving water, good self rescue skills, and should feel confident in big water. If you are at all unsure about this trip, paddle from Hope to Island 22 first and see how you like it. Then expect that this upper section is bigger and faster, with currents of 6 to 8 knot.</p> <p>Wetsuit or drysuit and helmet required</p> <p>Sign up by September 2.</p>

Saturday June	Paddle Canada Moving Water for Sea Kayakers Clinic Vedder River Cancelled	Instructors: John Drent Doug Childress Pat Jones jtrdrent@telus.net
6	<p>9:30am meet at Keith Wilson Bridge.</p> <p>This is a Paddle Canada-recognized clinic. Paddlers should have strong Paddle Canada Level 1 Skills or equivalent experience and be very comfortable with their strokes and balance.</p> <p>This clinic is a good preparation for the Paddle Canada Level 2 Skills course or as a review for PC 2 graduates. We teach and practice "reading" currents and manoeuvring in moving water. This section of the Vedder is relatively tame, but we'll have a few instructors ready to assist if needed.</p> <p>Pretty much any kayak will do but it will be easier to develop skills in shorter boats. We have a few plastic boats to rent at \$40.00 for the day. Bring your own paddle and call well in advance.</p> <p>Group size is limited to maximum of 8 paddlers, so sign up early. Each participant must sign a Paddle Canada waiver and pay a \$5.00 fee.</p> <p>Wetsuit or drysuit and helmet required.</p> <p>Get ready for a fun day on the river.</p> <p>Register by June 2.</p>	
Sunday June	Paddle Canada Stroke, Rescue and Situational Clinic Whytecliff	Instructors: Doug Childress and others doug_childress@hotmail.com
7	<p>This is a Paddle Canada-recognized clinic. Participants will be entered into the Paddle Canada database upon completion. There is a \$5.00/participation fee paid to Paddle Canada which covers the insurance and admin fees. Each participant must sign a Paddle Canada waiver.</p> <p>The clinic covers advanced re-entry skills, strokes and situations you could encounter during group paddles, where efficient and speedy action is required.</p> <p>Launch from Whytecliff Park. We will paddle a relatively short distance while practicing as we paddle.</p> <p>Expect to get wet. Wetsuit or drysuit required. Bring wheels. Lunch and a hot beverage are recommended.</p> <p>Arrive early as parking is limited. On the water at 10:00am. Duration: 6 hours</p> <p>Sign up by June 4.</p>

POOL SESSIONS FAQ

PIKA pool sessions: January 25, February 1, 15, 22 and March 7, 2020.

What happens at the pool sessions?

The primary goal of the pool sessions is to give people a safe environment to practice assisted & self-re-entries. Everyone in the club is required to do an assisted re-entry every year to be allowed to participate in a PIKA class 1 paddle, and to do a solo re-entry as well for higher classification paddles. We also work on building skills, such as edging, bracing and rolling.

Do I get help?

PIKA volunteers will be on hand to help you. You also can team up with other participants.

Do we need to register in advance for the pool sessions?

Yes, pool sessions are booked in advance by contacting John Bakker, jbakker042@gmail.com

What do they cost?

Pool sessions are \$20 per person, per session. You will be given payment information with your confirmation email.

What do we need to bring to the pool sessions?

Please bring your boat, PFD, paddles, paddle float and other rescue gear to practice in the pool. Your boat must be clean, inside and out. Wetsuit or drysuit is not required; I use a bathing suit and a neoprene vest.

Where are they held?

The pool sessions are held at the Tong Family YMCA which is located at: 14988 57 Ave Surrey, at the intersection of Hwy #10 and Panorama Drive. phone number 604 575 9622. The entrance to the parking lot is on 57th Avenue; drive to the very farthest area of the parking lot at the south east corner of the building. Parking is free. You will see a set of steps leading to a double door at the back of the pool; this is our entrance. We work as a group to move the boats in & out. Everyone uses the universal change rooms which have private booths to change in and lockers.

Who can attend?

Pool sessions are for PIKA members only.

What time do they start?

Sessions are from 9PM – 11PM. Please arrive no later than 8:30 to unload boats & get changed. We get out of the water at 10:30 to give time to shower and load boats. You can practice for the full 90 minutes, or as short as you feel comfortable. Many people relax in the hot tub at the end of practice.

What communication can I expect to get?

An email is sent to you a few days before the session with final details.
